HOYT NURSERIES

New Canaan, Connecticut

Telephone: 333

LOCATION

Our Nursery is located in the town of New Canaan, Conn., easily accessible by motor from all points in Westchester County, N. Y., and Fairfield County, Conn.

FOREWORD

GUARANTEE

It is our policy to guarantee our nursery products for a full year, and to replace without charge any plant or tree which dies or is unsatisfactory to the owner within that time. The cost of planting and transportation of replaced trees is borne by the purchaser.

PRICES

In this list are f.o.b. New Canaan, Conn., and are for our selection only. Plants selected by our customers will be charged for according to their individual value. These prices supersede all others and are subject to change without notice.

TERMS

Cash or satisfactory references must accompany all orders, unless the person ordering is known to us.

DELIVERIES

Are made free within a radius of 18 miles. On small orders, however, delivery will be made at our convenience when our truck is going in your direction.

LARGE-TREE MOVING

Our nursery is equipped for the moving of large trees. For the last thirty years we have moved thousands of these trees successfully and they have been a satisfaction to their owners. Fall or winter is the best time for moving large trees, since it is possible to do this heavy work with less injury to lawns.

PLANTING TIME

The spring season starts as soon as the frost is out of the ground and extends throughout April, May, and June. Our material is so grown that late planting can be done successfully. Most of our plants may be moved in blossom or full leaf with a ball of earth.

The fall season starts in August and extends through December or as long as the ground is open.

We are very glad to give information at any time regarding the planting, care, spraying, or trimming of plants.
